Education

- Fall 2026– Present **Doctor of Philosophy (Ph.D) in Computer Science**, *Kennesaw State University*, Marietta, Georgia, United States of America,
- Spring 2025– **Masters of Science (MS) in Computer Science**, *Kennesaw State University*, Marietta, Georgia, USA,
Summer 2026 *Ongoing CGPA: 3.87 out of 4.00*
- 2017–2022 **Bachelor of Science (B.Sc.) in Computer Science and Engineering**, *Ahsanullah University of Science and Technology*, Dhaka, Bangladesh,
CGPA: 3.164 out of 4.00

Undergraduate Research

Ahsanullah University of Science and Technology, Dhaka, Bangladesh

Title: **A Comparative Study of Diabetic Retinopathy Detection using Machine Learning and Deep Learning architectures.**

Used and modified six deep learning and machine learning models to detect Diabetic Retinopathy efficiently with the retinal fundus image using digital image processing. **Github Repository**

Supervisor: **Dr.-Ing. Nusrat Jahan Lisa**, *Assistant Professor, Department of Computer Science and Engineering*, Ahsanullah University of Science and Technology

Work Experience

November 2022 to December 2024 **Business Analyst**, *Brain Station 23 Ltd.*

I am a highly motivated and results-driven Business Analyst with experience in the technology industry. I possess excellent analytical and problem-solving skills, and I am able to use my technical background to identify the best and most effective solutions for the company. As a skilled communicator, facilitator, and mediator, I am able to work collaboratively with cross-functional teams to ensure that projects are completed on time and within budget.

July 2022 to October 2022 **Business Analyst Trainee**, *Brain Station 23 Ltd.*

Undergone with the training such as Requirement gathering, Process Analysis, ERP System Implementations, System Testing, System Upgrades, User training, Problem-Solving, Documentations, etc.

Language Proficiency

IELTS Overall 7.0 (Listening: 7.5, Speaking: 7.5, Reading: 6.5, Writing: 6.0)

Projects

- 2021 **Text Classifier Detection using Bi directional RNN**. The project is NLP based and classifies emotion from text using Bi-Directional RNN. **Github Repository**
- 2020 **Voice Server**. With this desktop application, two computers can be connected with each other can share files, call over, and can do messaging through socket port.
- 2019 **Orderista**. This is an e commerce website from where one can order Mobile as well as can review them if he has accounts, one can apply for a job if there is any vacancy. To built this application HTML, CSS, PHP and database are used.

Honors and awards

Scholarship Spring 2020 *Associated with Ahsanullah University of Science and Technology*. **Got a 50 percent Tuition Scholarship from Ahsanullah University Of Science And Technology for attaining a place among the top 5 percent of students.**
